Here's What Participants Had To Say

"Joining CyberQuest has helped my career. I passed two professional exams and got a job upon joining. Thanks CyberQuest."

I want to thank you so much to you and CyberQuest Team for the continuous support and guidance. The course helped me a lot in the preparation as well as to upskill myself. I will continue to complete my course and keep you posted.

The graphic is a dark blue rectangle with a white speech bubble in the center. At the top left is the Skills CONNECT logo, and at the top right is the IT@Cork Skillnet logo. The speech bubble contains a quote from Lindsay, a recent CyberQuest Graduate, about reporting a cyber attack and being congratulated. Below the quote is Lindsay's name and title, followed by the CyberQuest logo. At the bottom, it says 'Start your journey today. Apply now at: www.cyberquest.ie'.

“

"I recently reported a possible cyber attack (spear phishing) on the help desk and was congratulated by the security team for the steps I took. All down to my training with CyberQuest."

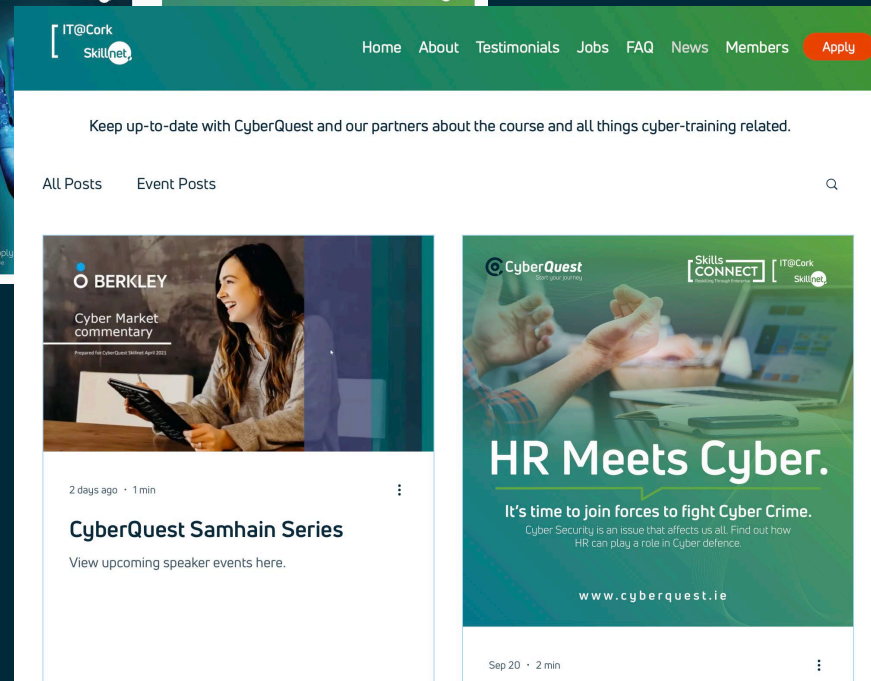

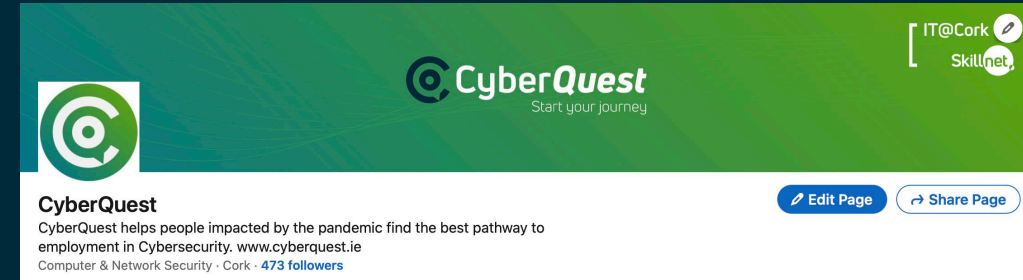

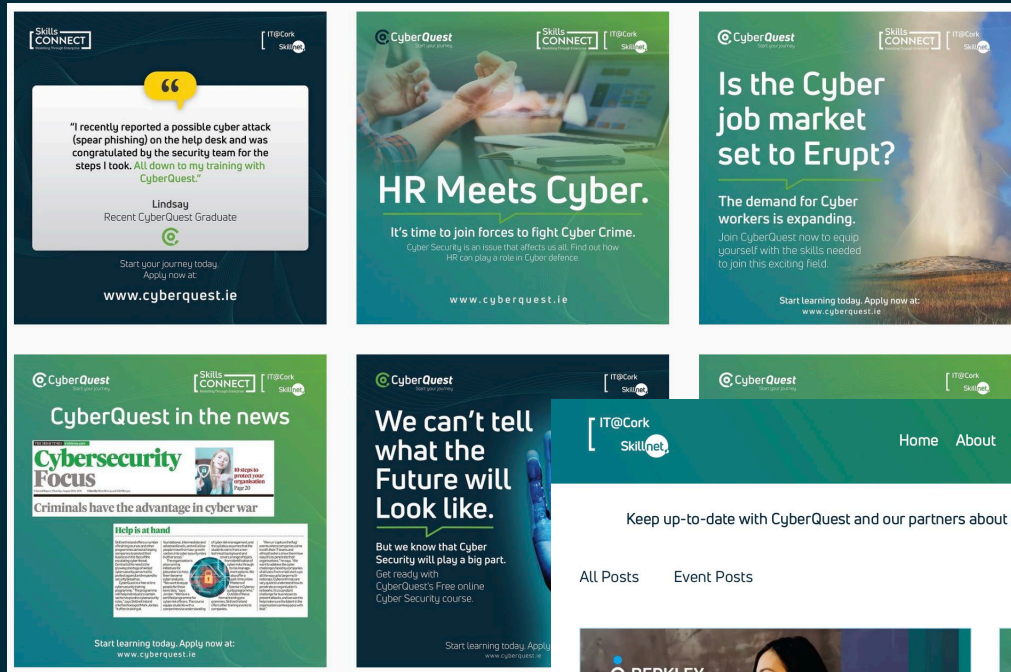

Lindsay
Recent CyberQuest Graduate

"It's been a lovely experience for me personally. I've been exposed to a lot of tools and technology from my learning path which I'm forever grateful. The whole team is amazing."

In the interviews I was asked about keeping emails and electronic media secure. They were impressed when I told them about the Cyberquest program I was attending online. I think it gave me that extra little edge and a higher score of course!

There are so many ways to remain up-to-date with Cyber developments.

[2022 Seminar Series

Fast Track Learning & Career Progression.

Part of the Skills Gap Solution.

- Collaboration is key. Political support is helpful.
- AMTCE Project combining 4Securitas, Meptagon and CJHNetwork. Looking North to Belfast, Tallinn and into EU.
- Operational Technology identified as development area.
- CyberQuest, Cyber Spark and Cyber Reach – similar programmes now talking to each other. CompTIA are part of this conversation.
- Employers are needed for support – Traineeships, Apprenticeships and Entry Grade.
- Selection Criteria need to be reduced and progression incorporated. Training is never finished.
